How will you manage your money?

There are 7 different suggested ways to manage your personal budget and look after your money. You can choose from any combination of these ways to help you stay in control:

- You**
The money goes into your bank account and you manage it. You will need to keep a note of how the money is spent. Lancashire County Council can help you with this if required.
- Your Family or Close Friends**
The money can be managed by a representative who agrees to act on your behalf and to spend the money on the support outlined in your plan. They will need to keep a record of how the money is spent.
- A Legal Trust**
Is a group of people you know well who become your trustees and work together to manage, arrange and pay for the services you need.
- A Provider**
You ask a provider organisation to manage your personal budget for you. They will need to make sure that they use your budget to support only you. They will need to be very clear about how much of your money will be spent on management costs and negotiate this with you.
- Care Manager**
A local authority social care worker will commission support on your behalf. This could work well where you are happy with a service you are already receiving and would like it to continue. If you would like to spend part of your personal budget on existing services, your social care worker can provide you with information on how much these cost to enable you to work out your budget.

Who is in your life?

Relationship maps can help you think about who and what is important to you in your life past and present. Make sure the most important to you in whatever section are closer to the centre of the circle.

What would your week look like and who would support you?

(This can be as flexible as you want it to be and can be changed as required)
